eQube/Teamcenter Reporting and Analytics Presentations

We invite you to the following sessions

Wednesday, June 3, 2009 sessions
Teamcenter Reporting and Analytics track
Location: Governors C

- 1) 3:25 PM - “eQube/Teamcenter Reporting and Analytics - Product Overview and Roadmap”
Dinesh Khaladkar and Sanjeev Tamboli - eQ Technologic
This session will cover the different modules and the product road map of eQube/Teamcenter Reporting and Analytics.
- 2) 4:10 PM - “eQube-BI 6.0/Teamcenter Reporting & Analytics - 8, In-Depth Demo”
Shilpa Upadhye and Sanjeev Tamboli - eQ Technologic
This is a demonstration of new features of the latest eQube-BI 6.0/TcRA 8 release.

Thursday, June 4, 2009 sessions
Teamcenter Reporting and Analytics track
Location: Bayou A

- 1) 9:30 AM - “BAE Systems Eurofighter - A Case study”
Graham Malley - BAE Systems
This is a BAE Systems case study of complex data migration and integration between Teamcenter and several other systems for the Typhoon Program using eQube-MI Solution, the latest product offering from eQ Technologic.
- 2) 10:15 AM - “eQube at Northrop Grumman Integrated Systems Sector – A Case Study”
Nathan Nalven - Northrop Grumman
This is a case study of implementation of eQube at Northrop Grumman - Focus on metrics, KPIs, and proactive reporting triggered by Teamcenter work-flow events. This presentation will highlight delivering engineering drawings as 3D PDF for review at a work-flow step by using eQube EMS capability.
- 3) 11:00 AM - “eQube-BI based “visibility” in Engineering at ATK Launch Systems”
Jon Jarrett - ATK
A case study of Dashboard KPIs and overall visibility across PLM program and legacy Systems at ATK, using eQube-BI.
- 4) 1:00 PM - “TcRA at General Dynamics C4 Systems”
Dennon Ison - General Dynamics C4 Systems
This case study discusses multiple benefits and implementation details of TcRA across both Teamcenter Enterprise and Teamcenter Engineering.

Thursday, June 4, 2009 sessions
Teamcenter Reporting and Analytics track
Location: Bayou A

- 5) 1:45 PM - **“eQube-BI/TcRA deployment strategies for maximum business benefit”**
Rahul Bhagwat and Rustom Tarporevala - eQ Technologic
This presentation highlights various ways in which eQube-BI/TcRA can be deployed for maximum business benefits. It will cover deployment using Portal/SharePoint/Tc Community, EMS module - proactive analytics, Integration with TcUA, Tc-MRO, and eQube-BI's BuildNPlay module for power-users.
- 6) 2:30 PM - **“Proactive use of eQube-BI for maximum business benefit on the F-35 Program”**
Luther Thomas and Eugene Day - Lockheed Martin
This presentation is about productivity gain with automation in collating all information related to design changes into a single PDF for all stake holders using eQube-BI's EMS capability at Lockheed Martin.
- 7) 3:25 PM - **“Application of eQube-BI for MBOM-EBOM reconciliation on the Lockheed F-35 Program”**
Luther Thomas and John Kelbaugh - Lockheed Martin
This is a case study of using eQube-BI for BOM reconciliation between PLM and other manufacturing systems.
- 8) 4:10 PM - **“eQube-MI - In Depth Overview”**
Sanjeev Tamboli and Rahul Bhagwat - eQ Technologic
eQube-MI (Migration & Integration) Solution is a new product offering from eQ Technologic. eQube-MI provides comprehensive data quality, data repair, data migration and integration capabilities. eQube-MI is unique in terms of speed of deployment and overall lower total cost of ownership. Data from various systems such as ERP (BaaN, SAP, etc.), Process Planning (HMS-CAPP, legacy), Shop-floor execution systems, and other legacy systems can be integrated with Teamcenter in near real time mode or batch mode.

Training sessions

June 2 - 3, 2009 sessions
Partner Training Session
Location: Ryman Studio EF (Training 3)

- 1) 8:45 AM - Tuesday, June 02, 2009
“Teamcenter Reporting and Analytics Overview”:
This is a free 90-min training session for TcRA introduction. It will cover TcRA 8 architecture, key features, and capabilities of the product.
- 2) 10:30 AM - Wednesday, June 03, 2009
“Teamcenter Reporting and Analytics Overview”:
This is a free 90-min training session for TcRA introduction. It will cover TcRA 8 architecture, key features, and capabilities of the product.
