

eQube-BI/Teamcenter Reporting and Analytics Presentations

We invite you to the following sessions

Tuesday, Oct 6, 2009

- 1) 9:00 AM - "Data migration & integration for Typhoon Program"
Graham Malley - BAE Systems
Track: Teamcenter Digital Lifecycle Management - Management (Managers)
Location: Radio Ballroom 3
This presentation is a BAE Systems case study of complex data migration and integration between Teamcenter and other systems for the Typhoon Program using eQube-MI (Migration & Integration) Solution. eQube-MI Solution is a new product offering from eQ Technologic, released in July 2009. eQube-MI provides comprehensive data quality, data repair, and data migration & integration capabilities.
- 2) 5:30 PM - "eQube-BI/TcRA Overview and Product Roadmap"
Dinesh Khaladkar and Sanjeev Tamboli - eQ Technologic, Inc.
Track: Teamcenter Digital Lifecycle Management - Solutions (Users)
Location: Radio City Ballroom 2
This session will cover the different modules and the product roadmap of eQube-BI/Teamcenter Reporting & Analytics. eQube-BI creates "visibility infrastructure" for its customers and provides visibility in their business processes for making informed and timely decisions.

Wednesday, Oct 7, 2009

- 1) 8:00 AM - "Use of Teamcenter Reporting & Analytics at ATK Space Systems"
Jon Jarrett - ATK Space Systems Group
Track: Teamcenter Digital Lifecycle Management - Management (Managers)
Location: Radio City Ballroom 3
ATK uses eQube to create dashboards & metrics with data from Teamcenter and other legacy systems for the PLM program. This is a case study of overall visibility in terms of Dashboards and KPI across the PLM Program including legacy systems at ATK.
